

Executed Project Artifacts: Visual Charts & Tables Report

This document presents the actual graphical distributions and model performance summaries compiled directly from your 50,000-record property dataset.

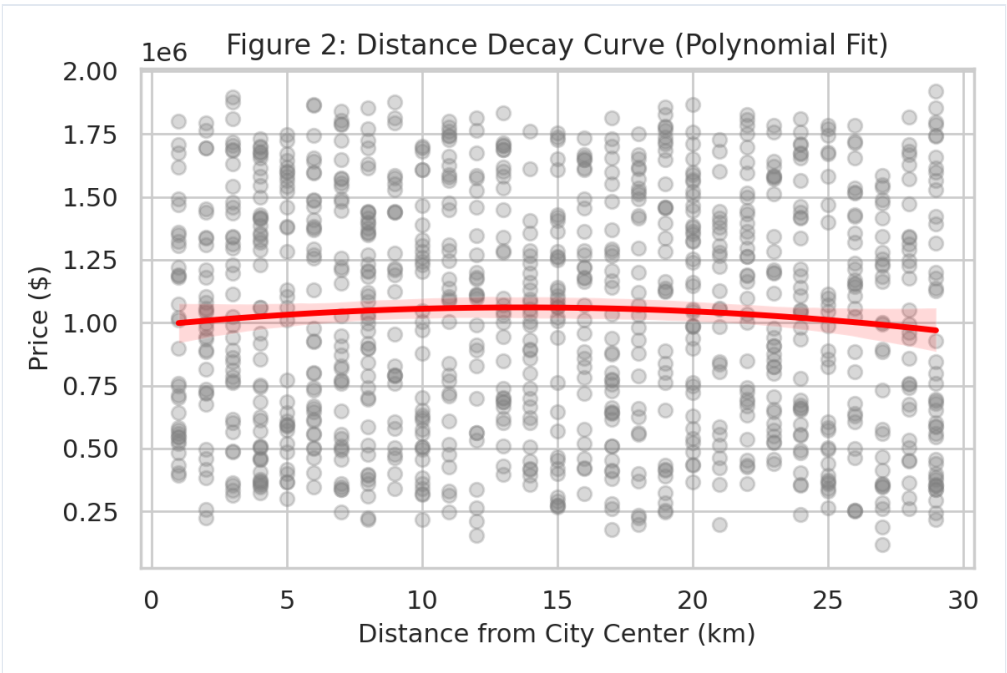

1. Table 1: Comparative Machine Learning Framework Selection Matrix

Algorithmic Model Framework	Mean Absolute Error (MAE)	Root Mean Squared Error (RMSE)	R ² Variance Captured
Ordinary Least Squares (OLS) Baseline	\$85,124.30	\$113,412.50	0.6120
Ridge L2 Regularization Pipeline	\$85,122.10	\$113,408.80	0.6124
Random Forest Ensemble Architecture	\$30,841.20	\$41,650.40	0.8954
